

Guitar Amplifiers

transtube SERIES

BANDIT 112

Peavey's exclusive TransTube® guitar amplifier technology emulates the sound, high output, warmth and "push back" of tube amplifiers. The TransTube preamp tailors the gain level while the power amp responds to the preamp with natural compression that increases with the amp's volume, just like a tube output section. Now you can get rich tube tone in a lightweight, hassle-free, reliable amp.

Bandit 112

POWER OUTPUT (RMS)	80 Watts/100 Watts
CHANNELS	Clean, Lead
EQ / GAIN VOICING OPTIONS	2/3 per channel
