DENON

Inspire the Pride of Ownership

Why buy Denon?

Established in 1910 Denon is one of the oldest Hi-Fi companies in Japan. Denon have been involved in all aspects of the music business from the recording studio through to the pressing of records and compact discs as well as manufacturing one of the most extensive ranges of Hi-Fi components available in the market.

Denon's musical heritage and their dedication to truth and purity in music has driven the Denon engineers to develop some of the most respected Hi-Fi components produced in nearly a century. Music lovers and Hi-Fi magazines around the globe have filled pages with praise for Denon Hi-Fi components, from amplifiers to some of the world's best CD players, audiophiles agree that Denon is the leader in the Hi-Fi world.

With Denon's near 100 year musical legacy it was only natural that this expertise be used to broaden Denon's appeal by expanding into the world of Home Theatre. Denon's engineers have used the Denon motto of "Inspire the Pride of Ownership" as their inspiration to create a range of home theatre products that continue to be praised by leading industry experts and magazines as some of today's best home theatre equipment

Denon's quality is reflected in the 3 year Warranty available on Denon components & systems.

Denon's is now proud to be working with Harvey Norman, Australia and New Zealand's largest national retailer and technology leader for home electronics & entertainment.

Harvey Norman

HOME THEATRE RECEIVERS

The home theatre receiver (some times called Audio Video Receiver “AVR”) is the heart of the home entertainment system. As well as providing amplification to drive your speakers, your Denon AVR also becomes your complete Home Theatre control centre which will also switch video signals and in some cases also provide simple and convenient multi room playback for that whole home experience.

Denon is proud to have three leading home theatre receivers exclusively available through Harvey Norman Stores

AVR589

- 2 x HDMI V1.3 switching for True HD video
- Audyssey MultEQ Auto setup with microphone, to maximise your surround sound experience
- Audyssey Dynamic EQ for improved surround sound at low volumes
- Audyssey Dynamic Volume for controlling loud changes in volume
- Compressed Audio Restorer for improved iPod playback

AVR689

- 3 x HDMI V1.3 switching for True HD video
- Audyssey MultEQ Auto setup with microphone, to maximise your surround sound experience
- Audyssey Dynamic EQ for improved surround sound at low volumes
- Audyssey Dynamic Volume for controlling loud changes in volume
- Compressed Audio Restorer for improved iPod playback
- Multi-source and multi-zone

AVR789

- 3 x HDMI V1.3 switching for True HD video
- Dolby TrueHD and dts HD master audio
- Faroudja DCDi 1080p scaling
- Audyssey MultEQ Auto setup with microphone, to maximise your surround sound experience
- Audyssey Dynamic EQ for improved surround sound at low volumes
- Audyssey Dynamic Volume for controlling loud changes in volume
- Compressed Audio Restorer for improved iPod playback
- Multi-source and multi-zone

DVD PLAYER

To compliment the DENON Home Theatre Receiver range.

The DVD1740 has the latest in video connectivity. HDMI, component and Scart connections are available so you can be connected to any TV. The DVD1740 has a built in 1080p scaler so that it is compatible with the latest new high definition panels.

3 YEAR[#]
WARRANTY

DVD 1740

Plays back MP3 and WMA audio discs and also features a slideshow function for your favourite snapshots. The DVD1740 is also DIVX Ultra compatible

IPOD DOCKS

Denon has embraced the iPod revolution with 3 feature packed iPod docks. No stereo Hi-Fi or home entertainment system is complete today without iPod connectivity.

No longer just a portable audio device, the iPod has become an integral component in a modern home entertainment system. An iPod will now store your favourite music and snapshots as well as the latest movies. Denon's range of iPod docks allow for simple integration of your iPod with the added convenience of control.

ASD11R

Playback your iPod music, photos slideshows and movies.

Denon ASD-11R dock enhances your entertainment with a Denon receiver and home theater system.

ASD3N

When you connect an ASD-3N to your amp, not only does the music from your iPod sound better, you can also use the ASD-3N to **wire - connect** your amp to a PC via a router or other network devices to play music from your PC on your home audio system.

ASD3W

When you connect an ASD-3W to your amp, not only does the music from your iPod sound better, you can also use the ASD-3W to **wirelessly** connect your amp to a PC via a router or other network devices to play music from your PC on your home audio system.

Registration must be submitted within 14 days of purchase. For more details, please refer to the warranty card.

SYSTEMS FOR CONVENIENCE

Denon showcases its audio excellence with two-stereo Hi-Fi Systems. Denon's engineers have created two compact stereo systems that are simple to use and come complete with all the Denon trade marks in sound quality and design.
