

**AUDYSSEY**  
MULTEQ XT  
DYNAMIC VOLUME

**AUDYSSEY**  
DYNAMIC EQ

After you have completed your Audyssey speaker setup and calibration you will not only find you have a great sounding system that is calibrated to your room environment but you also now have 2 extra Audyssey features that makes your Home theatre system even more compatible with your lifestyle and family

## Audyssey Dynamic EQ

- Helps maintain great surround sound from all channels even when volume is turn down low
- Great for watching movies without waking up the kids

### **AUDYSSEY DYNAMIC EQ**

Preserving bass and clarity  
at low volumes

## Audyssey Dynamic Volume

- Allows you to pre-set a volume level and controls “spikes” in volume
- Great for watching TV and controlling the sound of loud commercials
- 3 levels of control: Heavy, Medium & Light

### **AUDYSSEY DYNAMIC VOLUME**

Eliminate spikes for consistent volume
